MOMMOS BOTANICALS

About the range

Mommos Botanicals is produced by Dismark Products, S.L. in Santiago de Compostela, Galicia, north-west Spain. The five bottles cover the working categories of a zero-proof back bar — a gin, a spiced rum, an amaretto, a coffee liqueur and a bitter aperitif — all at 0.0%, all built the same way: never fermented, so never alcoholized.

That process distinction is the commercial one. Dealcoholized wines and spirits are fermented and then stripped, and typically retain a trace of alcohol. Nothing in the Mommos process is fermented, so there is nothing to remove — which puts the range inside dry venues, observant and recovery-focused settings, and institutional accounts that a dealcoholized product cannot serve.
